

Rented items:

Helium tank & gauge

Optional purchase items available at American Party-Time:

Balloons, weights, Hi-float, balloon clips

11" latex balloons last 10-12 hours with helium. Do not fill the night before event. Hi float may be purchased to extend the life of the helium filled balloon.

Do not under any circumstances inhale helium.

To prepare for use:

1. Transport helium tank w/ lid to event site.
2. Unload tank. Stand upright and secure so it cannot be tipped over.
3. Unscrew lid and thread gauge onto tank.
4. Once gauge is secure turn valve in the direction of the "open" arrows.
5. Place balloon over the black rubber nozzle and bend the nozzle.
6. Fill latex balloon until it starts to become pear shaped.
7. Tie end of balloon or secure with balloon fastening clips.
8. Add ribbon.

After use...

1. Turn valve in the direction of the "close" arrows.
2. Release any remaining helium by bending rubber nozzle.
3. Unthread nozzle and place lid back on cylinder.
4. Transport helium tank w/lid to return. Do not forget gauge.
